Upload image to IBM Container Registry

Pushing image to IBM Container Registry

The screenshot displays the IBM Cloud Container Registry web interface and a terminal window. The web interface shows the 'Namespaces' page with a search bar, a sidebar menu, and a list of namespaces. The terminal window shows the command to push an image to the registry and the resulting output, including the image ID and digest.

IBM Cloud Container Registry Interface:

- Search resources and products...**
- Namespaces**
- Location:** Global
- Resource group:** Filter...
- Name:** xpendee
- Items per page:** 25
- 1-1 of 1 item**

Terminal Output:

```
Using default tag: latest
The push refers to repository [icr.io/xpendee/application]
