Deploy in Kubernetes Cluster

The screenshot displays the 'mycluster-free' Kubernetes dashboard. The left sidebar shows navigation options: Overview, Worker nodes (selected), Worker pools, and DevOps (with a 'New' button). The main content area shows a table of worker nodes. At the top, there's a status bar indicating 'Preparing master, workers...' and 'Expires in 30 days'. Below this, a search bar and an 'Add' button are visible. The table has columns for Name, Status, Worker pool, Zone, Private IP, Public IP, and Version. One node is listed with Name '000000c9', Status 'Deployed', Worker pool 'default', Zone 'Milan 01', Private IP '10.144.213.108', Public IP '169.51.206.6', and Version '1.24.7_1543'. At the bottom, there's a pagination bar showing 'Items per page: 25' and '1-1 of 1 item'.

Name	Status	Worker pool	Zone	Private IP	Public IP	Version
000000c9	Deployed	default	Milan 01	10.144.213.108	169.51.206.6	1.24.7_1543
